Attend the Congressional Recep tion at White House--- One Negro Among Guests.

No reception at the White House has been auticipated with more curious interest than that as the "congressional reception."

Only one negro was there.

He fined up with the procession and was presented to the Presitlent by Col Bingham, "U. S. A. master of ceremonies."

Col. Bingham, as he asked the negroe's name, appeared as much embarrassed as shough he thought the colored brother had a razor in his pocket.

"I am Mr. Gaines, sah," ventured the colored guest.

He was as black as any full blooded negro could be, and wore long Prince Albert, kid gloves and gold specs.

Very few Southern congressmen were there, no senators and less than half a dozen representatives, among the latter being Mesers. James D. Richardson and Thetus the case following fever attacks W. Sims, of Tennessee; Hugh Dinsmore, of Arkansas, and exsenator Marion Butler, of North Carolina, walked in line after the negro. As he was put next the president Mr. Roosevelt did not look as delighted as usual. He simply greeted the negro with a How do you do, sir?"

KENTUCKY EXHIBIT

At St. Louis World's Fair---Jet ferson County Gives \$3,000.

The Fiscal court of Jefferson county has appropriated \$3,000 toward the fund for a Kentucky building and exhibit of the state's resources and products at the World's Fair next year. This ac tion was taken unanimously at the meeting of the body in Louisville on February 3d. A delegation from the Kentucky Exhibit Associntion appeared before the court and explained the objects of the association. When one of the magistrates asked how much that body would be expected to give, it was stated that, in the opinion To have an influence for good of the delegation, \$2,000 would be little enough. A member of the court immediately moved an appropriation of \$3,000 and without argument this sum was voted.

Riches in heaven is better than Exhibit Association in different parts of the State. The plan of No joy of the world can equal raising a part of the \$100,000 fund in this manner was first suggested to President A. Y. This amount in every instance would come, it is expected, from the Fiscal court appropriation added to the subscriptions received from the corporations and other business interests of that county.

The other departments of the paper are all interesting and ably conducted, among which is a summary of the world's news told in a narrative style, and Mr. Maupin's department-Whether Common or Not-contains original anecdotes and wit, moral lessons in homely phrase and verse, and appeals to old and young alike.

The Commoner as a whole is clean, entertaining and instructive and its Best Children's Page rapid increase in circulation-now amounting to 140,000-is proof of the
